The decision as to whether conditions are so bad as to warrant such action is one for the umpires alone to make.
  - ii. If no Umpires are present then the Captains shall agree on any decision to start or continue play.
  - iii. The fact that the grass and ball are wet and slippery does not warrant the ground conditions being regarded as unreasonable or dangerous. If the umpires consider the ground is so wet or slippery as to deprive the bowler a reasonable foothold, the fielders the power of free movement, or the batsmen of the ability to play their strokes or to run between the wickets, then these conditions shall be regarded as so bad that it would be unreasonable for play to take place.

Note: In order to facilitate play at the earliest possible moment after rain, the Umpires shall see that all necessary steps are taken to improve the playing area, including the pitch, by instructing the host home club to use every practicable means to remove water from the pitch itself and any other water surrounding the pitch or elsewhere on the playing area.

- (c) In the first 13 overs there must be a minimum of two stationery fieldsmen within the inner circle, at the instant of delivery. The two stationery fieldsmen may be permitted to stand deeper than the inner circle when fast bowlers are bowling, provided only that they are standing in slip leg slip or gully fielding positions.
- (d) Where play is delayed or interrupted affecting the innings of the team batting first and the total number of overs available is reduced, the number of overs in regard to field restrictions shall be reduced proportionately, e.g. Innings reduced to 40 overs. The first 12 overs shall have field restrictions placed on them.
- (e) The field restrictions for the innings of the team batting second shall be the same as for the team batting first except in an interrupted match when the overs available for the team batting second are reduced to fewer overs than were available for the team batting first in which case the number of overs that the field restrictions shall apply for the team batting second will be reduced proportionately to the number of overs that the field restrictions have applied to the team batting first, e.g. Team batting second has available to them 30 overs. ## Twenty20 Rules

### 26.1 The Result

In a match where each team has the opportunity to play the same number of overs; the result is decided by highest number of runs scored or in the case of a tie – an eliminator over.

If an unequal number of overs is played the team with the highest scoring rate per over shall be declared the winner. If the team batting first was dismissed in less than the maximum permissible overs, their scoring rate shall be calculated by dividing the runs scored by the maximum number of overs permissible, NOT the number of overs actually received.

### 26.2 Duration

One innings per side, each innings limited to a maximum of 20 overs. A minimum of 5 overs per team shall constitute a match.

### 26.3 Interval

The interval will normally be of 15 minutes duration. In reduced overs matches, the interval will be cut to 10 minutes. There are no drinks breaks.

### 26.4 No Ball

Any kind of No Ball will incur a penalty of 1 run.

### 26.5 The Free Hit

Should a bowler deliver a no ball by overstepping the popping crease, it will incur the penalty of 1 run and his next delivery is designated a free-hit. If the delivery for the free hit is not a legitimate delivery (ie any kind of no ball or wide), then the next delivery will become a free hit for whichever batsman is facing.

The batsman facing a free hit delivery can only be dismissed through a run out, for hitting the ball twice, obstructing the field or handling the ball, as is the case for the original "no ball". If the same batsman is facing then fielders must remain in same position. If batsmen change ends, the field can be changed.

This "free hit" rule only applies when there is an appointed umpire standing at the bowlers end.

### 26.6 Wasting Time

Appointed Umpires may award 5-run penalty runs to either team at their discretion if they believe either team is wasting time. Umpires are instructed to apply a strict interpretation of time-wasting by the batsman (five-run penalties). For example, batsmen are expected to be ready for the start of a new over as soon as the bowler is ready.

### 26.7 Slow Over Rate

Fielding teams must complete their allotted 20 overs within 75 minutes. If the fielding team do not start to bowl their 20th over within 75 minutes, the batting side is credited an extra 6 runs for every whole over bowled after the 75 minute mark; the umpire may add more time to this, if he considers the batting team is wasting time.

### 26.8 Bowling Restrictions

Bowlers may bowl a maximum of only 4 overs per innings. In a delayed or interrupted match, no bowler may bowl more than one fifth of the total overs allowed unless such a number has been exceeded before the interruption.

### 26.9 Fielding Restrictions

Leg Side

No more than 5 fielders can be on the leg side and a maximum of 2 behind square leg at any time.

Outer Circle

During the first 6 overs, a maximum of 2 fielders can be outside the outer circle. After the first 6 overs, a maximum of 5 fielders can be outside the outer circle.

### 26.10 Batsman Timed Out

The incoming batsman must be in position to take guard or for his partner to be ready to receive the next ball (or for his partner to receive the next ball) within one minute 30 seconds of the fall of the previous wicket.

### 26.11 Short Pitched Bowling

one short-pitched ball is allowed per over. (Premier Only)

### 26.12 Eliminator Tie-Breaker

If the match ends with the scores tied and there must be a winner, the tie is broken with a one over per side eliminator. If weather and light conditions permit, this shall commence within 5 minutes of the conclusion of the match or rescheduled by the umpires. Prior to the commencement of the eliminator, each team selects 3 batsman and 1 bowler. The umpires shall choose which end to bowl and both teams will bowl from the same end. The same fielding restrictions will apply as for the last over of a normal T20 match.

The team batting second in the match will bat first in the one over eliminator.

The same ball as that used at the end of the teams innings will be used for the extra over. The loss of 2 wickets in the over ends the teams one over innings.

In the event of a "tie" at the end of the eliminator, the team that has hit the most number of boundaries (fours & sixes) combined from its two innings (main match + eliminator) shall be the winner. If this is the same for both teams, the team that hit the most number of boundaries in the main match only, will be declared the winner.

Alternative Tie-Breaker (eg midweek twilight matches)

If, in the umpires opinion, fading light prevents the "eliminator" being completed safely; the "bowl-out" tie-breaker option may be employed as follows:

Five bowlers from each side delivering 2 balls each at an unguarded set of wickets. If the number of broken wickets is equal after the first 10 balls per side, the bowling continues and is decided by sudden death

### 26.13 Reduction of Overs

Teams have one hour 15 minutes to bowl 20 overs. In the first innings, the calculation of the number of overs to be bowled shall be based on one over for every full 3.75 minutes in the total time available for play up to the scheduled close of play. In the second innings of the match, overs shall be reduced at a rate of one over for every full 3.75 minutes lost, unless the first innings finished early / second innings started early in which case no overs are lost until the time that has been gained is subsequently lost.

**All other one day rules apply.**

(i.e. if 85 minutes is lost the number of overs is reduced by 5 overs for each side). If less than 20 overs are possible for each team the match shall be declared "Rained Out". Remaining overs should be calculated back from 6:50pm for Premier Grade, all other grades shall have 30 minutes grace before any reduction of overs is necessary.
- (b) If rain interrupts play while the first team is batting, the number of overs for each team shall be reduced as in clause 28a above.
- (c) If rain interrupts play while the second team is batting, the number of overs for this team shall be reduced by one over for every four minutes of playing time lost. If less than 20 overs are possible for the second team the match shall be declared "Rained Out".
- (d) If the number of overs is reduced for both teams or for the team bowling second a minimum of 5 bowlers must still be used. The maximum number of overs per bowler will be reduced to give the most even distribution possible for 5 bowlers. (i.e. a 50 over match reduced by rain to 25 overs after 12 overs bowled in the first innings, 6 overs each by 2 bowlers, 13 overs remain and a minimum of 3 more bowlers must be used, 1 with a maximum of 5 overs and 2 with a maximum of 4 overs. The team bowling second would then be allowed the same distribution of overs, 2 bowlers with a maximum of 6 overs, 1 with a maximum of 5 overs and 2 with a maximum of 4 overs).
- (e) For the purpose of finding a winner for rain interrupted games the Duckworth Lewis formula will be used for calculations, it is up to the the home team to have the app downloaded on to a smart phone if CricHQ scoring is not being used.

#### 29. Wides See Appendix 2 for Wide Markings Diagram
